Cooperative Learning Groups: Discussion Questions:

Think and Share: In your group discuss the following five points

Write on this sheet. This is a great beginning of year activity to get to know your students. I do not ask them to share in big groups but rather in small, safe, friendship groups. It also depends on the size of the class – as bigger with groups; I tend to make this a personal individual journaling activity. We also at this point go on to develop aims {personal and subject related} for the year.

1) Key aspect 1: Milieu / Background – Who are you?

2) Key aspect 2: Culture – What’s your story?

3) Key aspect 3: Values; Morals and Ethics – What values, morals and ethics define you?

4) Key aspect 4: Philosophy of life – What is your purpose in life?

5) Key aspect 5: Religious choices and faith – What do you believe?
